About this hike:

From the lower car parking at Imlan, follow the trail SW towards Hallingnatten. After the lake Nørdre Rantetjern, climb a steep hillside. At the top of this hillside the trail splits in two. Keep left here (the path to the right leads towards the ridge we recommend for the return). The trail continues on the north side of Øyvatnet and to the top of Hallingnatten.

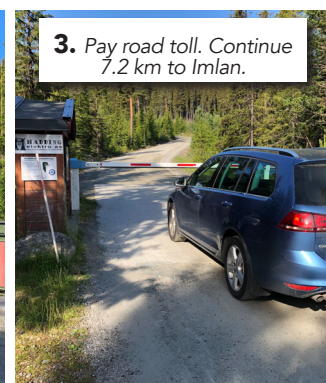

On your way back we recommend to follow the ridge going north before the descent to Nørdre Rantetjern. The descent is a bit steep at the very end so take it easy here.

We recommend doing this round trip clockwise, but it can also be done in the opposite directions.
