### Starting point /parking:

From Nesbyen, cross bridge over the Hallingdal river and Rv7 (main road Oslo-Bergen), follow signs towards "Vassfaret". Park by the lake Trytetjern (approximately 10 minutes drive from Nesbyen). **GPS-waypoint: "Trytetjern"**

### Hike description:

From the parking, follow gravel roads to the view point called "Utsikten" ("The View" in Norwegian). The junctions are marked by small blue hiker signs. From "Utsikten", follow the only trail leading upwards, look for the sign saying Klevrudnatten. This trail takes you to the top of Klevrudnatten (30 - 60 minutes from "Utsikten"). Enjoy the view of Nesbyen and the Hallingdal Valley from the top, especially beautiful in the evening as the sun sets. At the top you will find a book in a mail box where visitors can write their names. Be aware this trail is also popular for downhill bikers.

Back at Trytetjern, you can take a swim from the small beach in the north eastern corner of the lake. There is also a trail going around the lake, and a nice open shelter in the southern end of the lake.
